## Ten and a Half Mills Is Tax Rate Struck by Bigstone Municipality

A meeting of the council of the Municipal District of Bigstone, No. 469, was held in the Lone Ridge hall on Thursday, April 7th, with Councillors C. J. Hanson, Rattray, John Hanson, Krause, Arnold and Helmers present. The minutes of a former meeting were read and adopted on motion of John Hanson.

The monthly statement was read. Coun. C. J. Hanson reported in connection with destruction of gophers on Indian reserve, that the Indian Agent would take the necessary steps to try and control this pest.

Coun. Arnold gave his report of the annual meeting of the Hall Insurance Board.

It was moved by Rattray that the secretary be instructed to take up the matter of Mother's Allowance for a necessary case in the Municipality. The secretary reported the result of election in connection with Bylaw No. 27, as follows:

For the Bylaw ..... 17  
Against the Bylaw ..... 13

A depopulation of ratepayers in the area affected by the above bylaw asked the council to delay passing the said bylaw for one month in order to give the ratepayers time to accommodate themselves to the changed conditions. It was moved by Coun. Arnold that the final reading of Bylaw No. 27 be held over until next meeting.

A letter was read from Jacob Jabs regarding construction of road. It was moved by Coun. Krause that the letter be tabled.

A letter from Alex. Knox, respecting Littlewood case was read and filed.

A letter was read from Twin Creek school district in connection with the cost of travelling clinics. The secretary was instructed to communicate with the department and get the necessary information.

A letter from the department of municipal affairs respecting voters' list was read and filed.

A letter from R. M. Angus respecting fines imposed under the Noxious Weeds act was read and filed.

It was moved by Coun. Arnold that "Whereas the old surveyed roads across S. 1/2 9-46-25-4th and Section 35-47-25-4th are no longer needed, resolved that this council ask the department of public works to transfer title to same in lieu of compensation for new road." Carried.

It was moved by Coun. J. Hanson that R. C. Young be appointed weed inspector for the current year at a rate of \$240.00.

## COMPLETE GRAVEL EDMONTON-CALGARY ROUTE THIS SEASON

Government Contemplates Making Much-Travelled Road a Real Motorway—This Year's Program Calls for \$2,410,000 Expenditure.

Traders will be called for shortly by the public works department for the program of the provincial government. It is expected that work on the roads will begin soon after the first of May, and an active construction and betterment campaign will be carried on during the season.

Hon. O. L. McPherson, minister in charge of Alberta's roads, says that one of the first pieces of work to be done toward shaping up the program of the year will be to go through a big pile of petitions that have come in during the winter, asking for certain road work in different parts of the province. It is a foregone conclusion that they cannot all be granted, but a selection will be made of such projects as will best fit into the department's plans for a thorough north-and-south highway, and then for improving the east-and-west roads as quickly as possible.

All the graveling between Edmonton and Calgary is to be completed this season, making that much-travelled route a real motorway and the rest of the road to the international boundary will have the grading completed, with graveling where the grade is ready. The secondary highway program will be carried out in conjunction with the municipalities, which will be responsible for the work, with grants from the government.

The work on the main highways this year will take up the balance of the money still coming to Alberta under the federal aid scheme. A grant of \$238,000 remains to be credited to this province, and will be available when the 1927 program is accepted as qualifying therefor. The total amount to be expended by the province on main and secondary highways, bridges and maintenance is \$2,410,000, as provided under the recent estimates in the legislature.

muneration of \$4.00 per day and 10c per mile for the miles necessarily travelled, for a period not exceeding 30 days.

It was moved by Coun. Arnold that the secretary-treasurer be appointed as assessor for the current year.

It was moved by Coun. Arnold that the application of Mrs. A. Knight for a restaurant at Graves Beach be approved.

It was moved by Rattray that Division 6 be authorized to purchase two new Fresno scrapers and that the necessary machinery repairs be purchased by the secretary.

Following is the estimate of expenditure made by the council for the year 1927:

Administration	
Secretary-Treasurer	\$650.00
Auditor	100.00
Fees, meetings	500.00
Convention	100.00
Elections	50.00
Rentals	30.00
	\$1440.00

Division 1	\$2444.00
Division 2	1137.00
Division 3	2271.00
Division 4	3530.00
Division 5	3982.00
Division 6	2470.00
	\$15000.00
General	
Bond and Legal	\$400.00
Postage and Stationery	250.00
Advertising	200.00
Hospital Grant	300.00
Salvation Army Grant	100.00
Weed Destruction	250.00
Pounds	100.00
Relief	500.00
Public Health	150.00
Workmen's Compensation	150.00
	\$5900.00
Total Expenditures	\$13,340.00

It was moved by Coun. Helmers that the secretary-treasurer be authorized and empowered in the name of the council of the M.D. of Bigstone, No. 469, to levy on all assessable lands as shown by the finally completed assessment roll of the municipality for the year 1927 at a rate of 11 mills on the dollar to meet the expenditures of the municipality for the year.

It was moved in amendment by Coun. John Hanson, that the above motion read at a rate of 10 1/2 mills.

On a vote being taken, the amendment carried.

The secretary was instructed to write the Inspector of Public Works in connection with bridge construction, to ask for the last year, and also ask for the construction of a bridge between sections 14 and 15-46-27-4th.

It was moved by Coun. Arnold that the secretary be instructed to advertise for offers on lands to which the Municipality holds title.

After the bids had been passed for payment the meeting adjourned.

## CIVIL SITTINGS OF SUPREME COURT

The following is the list of cases set down for hearing at the civil sittings of the supreme court being held this week, before the Honorable Mr. Justice Ford:

Koutie H. Berge vs John M. Gruen, or Gruen.  
Hans J. Johnson vs F. A. Carleson and T. Huene.  
Agnes Stewart vs Wm. J. Stewart, Paulson vs Clements.  
Canadian Bank of Commerce vs Cox.

Hon. H. J. Anderson et al. vs. Anderson Estate.  
The case Paulson vs Clements was the first called, and is still in progress as we go to press.

## TEST YOUR WHEAT BEFORE YOU SEED

The Times has been informed that some of the farmers of this community have been quite disappointed, some of the tests being as low as 50 per cent. The reason for this low germination is not known, but the opinion has been expressed that possibly the grain began to sprout late in the fall and the life of the berries was thereby weakened. We would, therefore, advise the farmers to test their wheat to be sure the seed is good. We have also been informed that there is plenty of good quality wheat in the district which can be purchased for seed.

## EASTER

Easter comes at a glad season of the year. The festival itself is both commemorative of the resurrection of Jesus Christ and as a memorial to the atonement wrought by the death of the Master upon the cross.

It is hailed with great acclaim in all the Christian churches of the world. In Greek and Latin and in the languages derived from them, Easter was known as "Pascha," "Pasch," "Pasqua," "Pasqua," "Pasqua," etc., from the Chaldean word, "Pascha," the equivalent of the Hebrew "Pesach." The "Destroying Angel" act is recalled by the last name in "passing over" the households of the Hebrews when he smote the Egyptians, as disclosed in the twelfth chapter of Exodus.

This year Easter will fall on April 17. The way by which Easter is determined is that of the first Sunday after the paschal full moon—the fourteenth day of the calendar moon, or the full moon which happens upon, or next after March 21; and if the full moon happens on a Sunday, then Easter day is the first Sunday following. As usual, the churches of Wetaskiwin will observe Easter with elaborate programs. It is an event which the children and the grown-ups have learned to look forward to with much pleasurable anticipation. It is an event all should remember with some beautiful thought for the day.

## MR. FULLER HONORED BY THE TEACHERS OF THIS INSPECTORATE

A jovial crowd of teachers of the Wetaskiwin Inspectorate, and a few friends, assembled at the Women's Institute rooms on Friday evening as a farewell gathering to Mr. and Mrs. B. L. Fuller, who intend leaving shortly to take up their residence in Edmonton. This move has been made necessary by the promotion of Mr. Fuller to the position of high school inspector. The evening was very pleasantly spent in cards, the prizes for which were won by Miss Wilkins and Mr. Keith French. During the evening, Mr. Poole, on behalf of the teachers, presented Mr. Fuller with a handsome club bag and Mrs. Fuller with a beautiful bouquet of carnations as a slight token of the esteem in which they are held. Mr. Fuller thanked the donors for the good wishes expressed and for the tokens of esteem which accompanied them. After a dainty lunch was served, a pleasant hour was spent in dancing.

## POOLS GATHER 818 ELEVATORS

Calgary, April 6.—The three-prairie wheat pools this year will own approximately 818 elevators. It was stated at the pool office here this week. At the present time C. M. Hall, manager of the elevator department of the Alberta pool, is in Winnipeg with W. J. Jackson and Lew Hutchinson, two of the directors, negotiating for further local elevators. It is stated that where the elevator is in good condition and can be purchased at a reasonable price, the pool will buy. Realizing that it will build. At the present time the pool owns 22 elevators in Alberta, and it is the intention to increase these to 100 this year. The Saskatchewan pool, it is said, will purchase 50 additional elevators this season, making its total 65. The Manitoba pool will add about 38 to the 30 elevators it now owns in that province. According to figures given here at the Alberta pool office, the total membership to the end of March was 33,956, representing 3,547,227 acres. This is an increase for the past month of 124 members and 10,235 acres.

## FRIDAY IS A HOLIDAY

Friday of this week is Good Friday, and will be observed as a holiday in Wetaskiwin. All business places will be closed.

## TWO KILLED IN HEAD-ON CRASH

Calgary, April 11.—Investigation to establish responsibility for the wreck on the C.P.R. at Seven Persons will be conducted today according to General Superintendent Cameron of the Alberta division. The collision happened in the worst blizzard of the winter which drifted the snow ten feet deep in places. The storm was general over the southern part of the province, especially from Taber east, necessitating the use of snow plows on the railway. The storm came out of the northeast and covered western Saskatchewan and eastern Alberta. The wreck of the freight train happened at the height of the storm.

Lehighville, April 11.—Two freight trains crashed in a head-on collision one mile east of Seven Persons, on the Taber sub-division of the C.P.R., just before noon on Saturday.

G. Swanson, engineer on the west-bound engine, and C. D. Baines, head brakeman on the westbound freight, were killed. Lou Ward, fireman on the westbound engine, had his hands badly mangled and one arm broken. No other casualties are believed to have resulted.

Lou Ward played the role of hero when the crash occurred. In an effort to save his engineer, G. Swanson, he risked his own life, getting both hands caught in the terrific impact of the locomotives. Removed to the Medicine Hat hospital, an operation was performed, both hands at mid-palm being amputated. Part of the thumb of both hands were saved.

Will be inducted as vicar.

Rev. D. D. Macquenn will be formally inducted as Vicar of Wetaskiwin at Ponoka by Ven. Archdeacon G. Howcroft, D.D., in Immanuel Church on Wednesday of next week, at 7 p.m. The service will be followed by a banquet in the Parish Hall.

## ANOTHER 3,500 NEW SETTLERS HAVE ARRIVED

Montreal, April 9.—Another 3,500 newcomers from Europe will be added to Canada's population, almost entirely by way of agricultural channels, through arrivals at Saint John this weekend.

Local colonization boards in western Canada are absorbing a large percentage of the newcomers moving into assured employment found for them.

Parties of British women recruited for domestic work are going to employment in eastern and western Canada.

There is another large contribution under the dominion government's 5,000 family scheme, consisting of 25 families of 210 people, several families having two or more members.

There are other family groups from Ireland and Scotland going to swell the nucleus of the new colony in northern Alberta of the Scottish Immigration Aid Association. Several and buyers with funds for immediate farm establishment are travelling straight to Winnipeg for the service of the Canadian Colonization association.

Two Wetaskiwin men buy hardware store.

Messrs. H. B. Stewart and R. S. Murray have entered into a partnership and purchased the old-established hardware business of Mr. Graham in Ponoka. They went down last week to take possession. As both the men are popular and have a thorough knowledge of the hardware business we hope for them a very gratifying success in the new venture. They take with them the very best wishes of their host of Wetaskiwin friends.

Magnetic brush for tacks.

Calgary, April 11.—Fitting up one of the city's electric trucks with a magnetic brush to pick up tacks, nails and other such material which cause motorists a great deal of grief, especially at this time of the year, may be carried out by the city.

## Oil Possibilities in This Province Great, Claim of Speaker at Kiwanis

Those who attended the Kiwanis Club luncheon on Tuesday evening, heard a very enlightening address on the subject of oil possibilities in Alberta. The speaker was Mr. R. P. MacLaren, geologist, who has made a special study of the oil resources of the west, from the Gulf of Mexico on the south to the Arctic circle on the north, and from Winnipeg on the east, to the foothills. Referring to the general conditions in Alberta, the situation has been thoroughly bungled, as companies have been started by men who have had no experience whatever and a lot of money has been thrown away by investors, who become disgusted with the treatment they have received. Wells have been commenced without recommendations from competent geologists, or

before geologists have had time to make a careful investigation of the field. Since 1924, over 300 wells have been started, but how many of them "come in"?

There are strong indications of oil in many places in the province, and Mr. MacLaren prophesied that there would be a big oil field here when it was developed. The people in the west are going through their kindergarten in the oil game, and he advised them to forget the past and take things as they are today. He was convinced that there was more oil in Alberta than the people imagine. Small refineries were practical as there were some in operation in the southern states today. The address was very interesting, and at the conclusion several questions were asked.

## The Week at Ottawa

By William Irvine, M.P.

The feature performance of the week just ended has been the discussion on the report of the Imperial conference. The uncertainty and confusion which surrounds the question of Canada's national status is amazing. Constitutional lawyers are credited with the genius of clarity, yet when they have spoken for many hours no Canadian knows whether Canada is a sovereign state or a colony of Great Britain. Some of the learned lawyers will even declare with great profundity that Canada is an independent nation within an empire. It would be equally intelligent were Canada to be declared an empire within an independent nation.

At any rate when equally learned constitutional lawyers are found arguing both for and against the supposed status, it is no wonder that a layman is puzzled.

The prime minister and the minister of justice were the official delegates of Canada to the Imperial conference held in London in the fall of 1926. At the above conference there were certain declarations setting forth the relations between the King and the Dominions; an alteration was made in the King's title; there were declarations in respect of the Governor General; there was an arrangement of non-recognition of the British power of disallowance of Dominion legislation; details in connection with the forms; negotiations and ratification of treaties were agreed to; it was settled that plenipotentiaries should be appointed on the advice of the governments concerned; and probably commitments were made in respect to the Locarno treaty. While none of these things, or even all of them together, takes us very far toward a national status, yet they tend in that direction. In any case the matters above enumerated are of sufficient importance to concern the parliament of Canada. Whether we favor or oppose the declarations of the conference, all will agree that they should be considered and passed upon by parliament.

The Canadian delegates, the prime minister and the minister of justice, come back to the Canadian parliament and refuse that body, to which both are responsible, the right to consider the deliberations of the conference in an intelligent way. If, therefore, Canada has gained any liberties at the Imperial conference, she is losing more important liberties in her own parliament.

For if a prime minister can go to England and commit Canada to national, international or imperial obligations without seeking the ratification of parliament, then we have the very worst form of autocratic diplomacy. Although I fully agreed with what took place at the Imperial conference and would have been prepared to support the prime minister's motion for ratification if he had made such a motion, I nevertheless, as opposed to the manner in which he has ignored the rights of parliament. If the declarations of the Imperial conference are allowed to go unchallenged this year, even though we may be in agreement with them, they will go unchallenged in the future when we may not agree with them. All will acknowledge that it is preposterous for declarations of any conference to be binding upon a country which has not given its sanction to such declarations.

It is, of course, true that parliament is discussing the Imperial conference while it is being discussed. Instead of the prime minister bringing in the report of the conference in the form of a resolution for parliament's acceptance or rejection, he rises to discuss the conference on a motion to go into supply. This means that a vote on the merits of the conference is precluded.

The leader of the opposition, Hon. Hugh Guthrie, thereupon moved an amendment to the motion to go into supply. The effect of Mr. Guthrie's amendment is that nothing transacted at the Imperial conference shall be considered binding by Canada unless sanctioned by the Canadian parliament.

The debate will probably end next Tuesday, when a vote is expected on Mr. Guthrie's motion. We are in agreement with the principle of parliament's supremacy, which is the substance of Mr. Guthrie's motion. At the same time we agree in general with what transpired at the Imperial conference. So this is one of the quandaries into which a member of parliament is frequently thrown.

The fact is that the prime minister, who has proclaimed his belief in and adherence to the supremacy of parliament in season and out of season, has blundered. He has no business to be bound by any agreements of his without the consent of the representatives of the people.

ARTHUR MAYERS, brought here from the coast to trial on two theft charges, theft of a grain cheque by use of knock-out drops in Calgary, and the cashing of the \$600 cheque after payment had been stopped, by presenting it at the C.P.R. depot here for railway tickets and express orders, pleaded guilty on Thursday. Magistrate Primrose sentenced Mayers to four years and eight months in the penitentiary at New Westminster, B. C., to which he has already been sentenced to a four-year term for use of knock-out drops at the coast. Hush C. Macdonald, K.C., appeared for the prisoner Mayers.

Before having a return ticket for Moose Jaw, later found on him when arrested, and getting away with over \$500 in orders cashed at Wetaskiwin, Mayers is said to have tried the trick at the C.N. ticket office. The ticket was even made out for him, but when the large cheque was presented the clerk decided to take no chances, becoming suspicious by the indifferent manner in which he had suddenly changed his destination from Winnipeg to Moose Jaw—Journal.

ALBERTA IS READY TO SELL E.D. & B.C. AT LOSS

Ottawa, April 8.—Premier Brownlee of Alberta, addressed the railway committee of the house of commons today on the Peace River railway project. Besides emphasizing the great potentialities of the district, the premier said that Alberta was not able to finance further extension of the existing road, and that, moreover, it was inadvisable to build any more extension of the existing lines until the question of a coast outlet was definitely settled and the lines could be located in conformity with it.

For that reason Mr. Brownlee urged strongly that the committee take some definite steps towards a final solution of the Peace River transportation problem. He further intimated that in the event of the Canadian National desiring to absorb the E.D. & B.C. line, the province would be prepared to take a considerable loss on its investment.

It is, of course, true that parliament is discussing the Imperial conference while it is being discussed. Instead of the prime minister bringing in the report of the conference in the form of a resolution for parliament's acceptance or rejection, he rises to discuss the conference on a motion to go into supply. The Greatest Mystery Story Ever Written

## BEAU GESTE

By PERCIVAL CHRISTOPHER WREN

(Continued from last week)

As the bugle-call died away, Hank  
roared orders in French at the top of  
his enormous voice, and away to the  
left a man was signalling back with  
excited energy, to the French forces  
behind him, "enemy in sight!"

Evidently the panic-stricken mob of  
robbers thought that the danger was  
behind the spot on which they had  
first seen Hank, for they fled in a  
direction to the right of the rocks  
behind which Digby had blown his  
bugle.

Suddenly my heart leapt into my  
throat, as one of the robbers, perhaps  
their leader or a candidate for lead-  
ership, swerved to the left from the  
rue of the fleeing band, and, with  
a spirit of savage vengeance, or  
the desire, not uncommon with these  
people, for single combat in the pre-  
sence of many onlookers, rode at the  
man who had exposed himself to sig-  
nal back to the imaginary French  
force of which he was evidently the  
scout.

"Quick!" I yelled. "He'll get him,"  
and I found myself yelling Digby's  
name.

We scrambled on to our camels,  
Hank hawling commands in French,  
and Digby yelling devilish war-  
whoops.

Digby stooped and then poised him-  
self in the attitude of a javelin-thrower.  
As the Arab raised his great sword,  
Digby's arm shot forward and the  
Arab reeled, receiving the stone full  
in his face, and jerking the camel's  
head round as he did so. Digby grab-  
bed at the man's leg and pulled him.

They rose simultaneously, the Arab  
sword went up, Digby's fist shot out,  
and we heard the smack as the man  
recoiled backwards and fell, his sword  
dropping from his hand. Digby seized  
it and stood over the half-stunned  
robber, who was twitching and claw-  
ing at the sand.

And then we heard another sound.  
A rifle was fired and Digby swayed  
and fell.

An Arab had wheeled from the tail  
of the fleeing band, fired his shot at  
about thirty yards' range, and fled  
again, we three, on our galloping  
camels being not a hundred yards  
from him.

Digby was dead before I got to him,  
shot through the back of the head  
with an expanding bullet.

We tied the Arab's feet, and I blew  
bugle-calls to the best of my ability.  
I am going to say nothing at all  
about my feelings.

Digby was dead! Michael was  
dead. I felt that the essential me was  
dead too.

I lived on like an automaton, and  
—like a creature sentenced to death  
—I waited for the blow to fall, the  
moment of collapse to come.

We buried Digby there, although we  
expected the return of the Arabs at  
any moment.

"He shore gave his life for ourn,"  
said Hank, chewing his lips.

"Greater love have no man," I  
was able to reply.

Buddy said nothing, but Buddy  
wept. He then untied the comple-  
tely recovered Arab, a huge, powerful  
young fellow, twice his size, and with-  
out weapons on either side, fought  
him and beat him senseless.

Discussing the problem of this rob-  
ber's future, I suggested we should  
bind his hands, put him on his camel,  
and make him our guide—bidding him  
lead us first to the oasis from which  
the band had come.

"Lead us not into temptation," said  
Buddy. "He'd shore lead us where he  
wanted us."

Speaking to the man in his own  
tongue, when he had recovered from  
Buddy's handling, I asked him what  
he was prepared to do to save his  
life. Could he lead us south, parallel  
with the caravan route, from one oasis  
or water-hole to another, if we agreed  
to set him free as soon as we were in  
the Kano territory?

He replied that he would willingly  
do, the two falling together.  
lead us to Heli and cheerfully abide  
there himself, so long as he got us

## TRY MAGNESIA FOR STOMACH TROUBLE

To Neutralize Acidity and Fermenta-  
tion. Prevents Indigestion, Sour  
Gassy Stomach

People who suffer from indigestion  
usually have tried poplin, charcoal,  
drugs and various digestive aids and  
got little more than slight temporary  
relief—sometimes not even that.  
But before giving up to chime dys-  
pepsia, just try the effect of a little  
Bismarck Magnesia—not the ordinary  
commercial carbonate, citrate or milk,  
but pure Bismarck Magnesia which  
you can obtain from practically any  
druggist in either powder or tablet  
form.

Take a teaspoonful of the powder  
or four compressed tablets with a lit-  
tle water after your next meal, and  
see what a difference this makes. It  
will instantly neutralize the danger-  
ous, harmful acid in the stomach  
which now causes your food to fer-  
ment and sour, making gas, wind, flat-  
ulence, heartburn and the bloated or  
heavy, lumpy feeling that seems to fol-  
low most everything you eat. You can  
enjoy your meals without a fear of  
indigestion. (30A)

## PREVENT FOREST FIRES

## You May Lose Your Job If Forest Fires Continue Unchecked

Hundreds of thousands of Canadian men and women depend upon the  
forests for their livelihood. You may be one of them.A lighted match, a cigarette butt, thrown down carelessly in the woods, or a  
campfire left smouldering, may cost you your job. It is up to you; be care-  
ful of fire when in the woods.CHARLES STEWART

## Save Your Forests

dead with host an' thir, an' Hank  
turned right round an' hiked back an'  
come out alive!"

And at last, when a caravan came  
from the north, actually going south  
to Zinder (the military headquarters  
of the Territoire Militaire) and com-  
parative civilization, he proposed that  
we should join it as camelmen and  
guards.

"You can't stop here for keeps, o' pards," he said. "I reckon I ben sel-  
fish. But I couldn't leave o' Hank  
while there was a chance."

But for Michael's letter (and my  
longing to see Isobel), I would have  
reused Buddy to stay, for that was  
really what he wanted to do.

Nothing could destroy his faith in  
his friend's superiority to the desert  
and to death. We joined the caravan  
as fighting-men, one dumb, and later  
(as we neared Zinder) we left it, al-  
though we had little fear of getting  
into trouble there. Still it was just  
possible that some non-com. of the  
big garrison there might know and  
recognize us, and possible that a well-  
equipped party of gnomes might have  
come along the caravan route  
from Zinder.

"We gotta hike," wheezed Buddy.  
"We don't wanta make what he done  
all for nix. All no good, like. He  
won't come back and drink it. Yew  
don't gona waste his life, pard? He  
done it for yew."

I filled my mouth and swallowed—  
I felt I could not swallow the lump in  
my throat.

We staggered on through that day  
and the next, moistening our mouths  
at intervals, and just before sunset,  
on the second day, saw a mirage of  
palm trees, a village, a little white  
mosque, and—the mirage was real.

We stayed at this village for some  
months, securing the desert for Hank,  
working as cultivators, water car-  
riers, watchmen, camelmen, and at  
any other job that offered, and we  
were never both asleep at the same  
time.

When French patrols visited the  
place, we hid or fled into the desert,  
with the entire sympathy of the vil-  
lagers. We could have joined more  
than one south-bound caravan, but  
I would not urge Buddy to leave the  
place.

He had such faith in the indestruc-  
tibility of Hank, that he hoped against  
hope, until hope deferred made his  
heart sick.

At first it was:  
"He'll come muslin!" in here ter-  
mimer, athrowin' his foot like a  
big buck tibia, rollin' his tail like a  
high-fed horse, an' grinnin' 'er bust."

Then it was:  
"Nobody couldn't kill Hank. He's  
what you call undestructible. Why,  
back in Colorado he chased a man  
over the Panamint Mountains an'  
right across Death Valley once, an'  
right across the Funeral Mountains on  
the other side. A horse-eater he was, an'  
when o' Hank got him, he was stone

a try, so I did, and took two horse  
of them and I am now enjoying per-  
fect health. I trust they will help  
others as they have helped me."

## THE JOYS OF SPRING

What a glorious feeling just before the wintry chill has left and the snow and ice are slowly disappearing—just a few days of warm sunshine seem to lift that lethargy which seems to hang on to people who have been indoors for so many months.

The mind which is never more creative than at this time of year seems to open into a new era—a fresh field of occupation and endeavor comes before the mental eye. Thoughts are crowding in of the many ways that improvements can be made and attainments accomplished. The spell cast on the mind and body gives them renewed vigor, a buoyancy that brings joy to those who are willing to receive it. Who is there that doesn't, during the early spring, just "itch" to get out the hoe, the paint brush, a monkey wrench, or the golf clubs, and turn loose some of that pent-up energy? Just some mouldy person who is beyond the reach of nature, and is more dead than alive.

Many people enjoy the buying of new clothes, or maybe a new car, in which to spend many happy hours in motoring during the coming summer. The paying of a debt which may have caused considerable worry both to the debtor and the creditor brings relief and joy, for the creditor will be able to ease it along, to the next fall, and in this manner it is easily conceived that many debts would be cleared off—they are one of our main "kill-joys."

## DADDY OF THEM ALL

## PA'S SON-IN-LAW

The successful program, calls for five essential principles, which he gives as follows:

1. A farmer must specialize in some one phase of work—potatoes, fruit, hops or dairying, in addition to his general crops and livestock.
2. He must make the best use of nature's methods to gradually and continually improve the soil. Legumes and winter crops are a few of the keys to nature's storehouse.
3. He must invest time, labor and money in improvements that profitably drain wet land, lime acid soil, use commercial fertilizer on soils lacking organic matter and fertility, use varieties and strains of crops that resist the attacks of diseases and insects, terrace the washing land and build a manure pit or covered barnlot to preserve leaching of the manure's best fertility.

4. He must use every acre of his farm for crops, pasture and forest.
5. He must keep a constant ear to the ground, listening for newly discovered facts that will open the door to greater efficiency on his farm.

"If agriculture is to continue on a competitive basis," concludes Professor Bear, "only two classes of farmers will be able to survive; those with low standards of living, who have a prodigious capacity for hard manual work, and those who keep pace with the advance of scientific agriculture, organize their farming on a long time basis and use modern business methods."

## THE WHEAT POOL'S PACIFIC TERMINALS

Under the terms of a lease recently agreed upon between the Pool and the Vancouver Harbor Board, No. 2 terminal elevator at Vancouver, owned by the Canadian government, will pass to the control of the Alberta Wheat Pool on August 1, 1927, for one year, at a yearly rental of \$100,000. This terminal has a capacity of 1,500,000 bushels and cost in excess of \$2,000,000.

No. 1 terminal was leased to a private grain man at an annual rental of \$145,000 a year. It has a capacity of 2,100,000 bushels.

The securing of the lease on No. 2 terminal elevator provides the pool with a total terminal capacity on the Pacific coast of 2,750,000 bushels. The

### ARTICLE No. 20

In any discussion as to the information, there is usually an agreement that a double of an original bid is an informative bid, and requires a bid from partner. A double of an original bid of three in a suit, however, means an informative double to some players and a business double to others. According to the generally accepted rule, a double of an original suit bid of one, two or three is an informative double but there are many very good players who doubt the value of the rule when applied to the value of a bid of three. They claim that it is so seldom of any value that it should be eliminated as an informative double and maintain that a double of three should always be regarded as a business double. The writer has frequently stated his opinion that such a double is on the border line but inclines to believe that the latter result is obtained by regarding it as a business double. The following hand, however, appears to be one where the informative double would have worked beautifully:

Hearts—A, K, J, 4  
Clubs—A, 8, 5, 3  
Diamonds—K, 7, 4, 2  
Spades—Q

No score, rubber game. Z dealt and bid three spades. What should A bid? If he bids three hearts, he is regarded as an inoperative bid and he can support any four bid by his partner.

### Answer to Problem No. 23

Hearts—Q, 7, 4  
Clubs—K, 6, 2  
Diamonds—K, J, 9, 7  
Spades—6, 4, 2

No score, rubber game. Z dealt and bid no-trump. All passed and A opened the eight of spades. Y played the queen. B the queen and Z the seven. B now played the ten, Z the ace, A the ten and Y the four. How should Z size up the hand and plan the play? In the preceding article, the cards held by Y and Z were given. Now that the cards of A and B are also given, it is evident

Hearts—trumps and Z is in the lead. How can Y win six of the nine tricks? Y should defend Z must lead the jack of clubs and overtake in Y's hand. If B takes the trick as he should and leads a spade, Z should win the trick and lead the nine of clubs, again overtaking in Y's hand. If B wins the trick and leads another spade, Z should win the trick and lead the seven of clubs, winning the trick in Y's hand with the eight. Y should then lead a diamond, trumping in Z's hand with the trey of hearts. He should then lead the seven

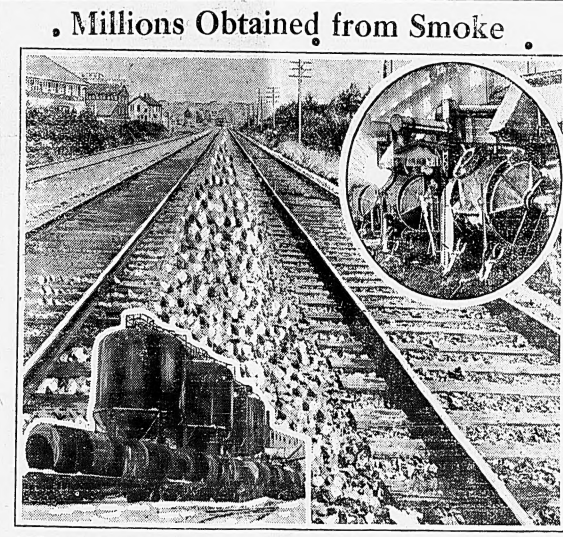

of spades and trump in Y's hand. Y should now lead his last diamond. B should trump or discard. If he discards, Z's queen of hearts will be good. If he trumps, Z will trump with his queen. In either event, Y will score one club trick, two spade tricks and three trump tricks. Note that Z should either heart or a spade at the first trick. Y-Z can only make five tricks as B can set up a spade trick and give A a discard. Play this out for practice.

Many a man falls into debt, but the process of getting out is usually one of crawling.

Millions of dollars have evaporated into thin air up around Sudbury in the last forty years, from the roasting heaps and smelters of the nickel mining companies. By an ingenious device the Mond Nickel Company now captures a fraction of the smoke and thereby supplies all Canada with an essential chemical—sulphuric acid.

Many and varied are the products from the nickel-copper ore in addition to the two principal minerals, and in the smelting of the ore into matte vast quantities of sulphur are burned away. This process creates an unpleasant smoke that devastates foliage in the vicinity of the smelters. The Mond Nickel, which business, installed at great expense a plant which converts just ten per cent of the smoke from the smelters and produces annually fifty thousand tons of sulphuric acid, which meets all the requirements of Canadian industry. This immense chemical plant is one of the amazing products of science, for by means of various heats and pressures, applied at different stages of the process, the acid is separated from the other elements. Different grades of the acid are made to meet the requirements of different markets, but a lot of it goes into automobile batteries. The chemical plant is operated with very little human aid. In one corner of the building is a tiny office containing delicate

apparatus which automatically reports what is taking place at different parts of the plant, so that by a glance at the chart, the engineer is able to regulate the manufacture of the acid.

This is, of course, only one of many by-products of the nickel industry, and the others range all the way from platinum to rock ballast for railway beds. The used by the Canadian Pacific Railway on many miles of its road, some of it going nearly as far west as Winnipeg. Gold and silver are recovered in the refinery, as well as platinum, the precious metals totaling in value more than a million and a half dollars every year.

The sulphuric acid is manufactured at Coniston, near Sudbury, in that mighty nickel district in the vicinity of Sudbury. Sudbury district produces ninety per cent of the world's nickel, and is this year celebrating the fortieth anniversary of the discovery of nickel, which was first detected in the ore in 1857.

The central picture of the above layout shows a typical stretch of Canadian Pacific rock-ballast road bed. The upper photograph is a view of the sulphuric acid manufacturing facilities, while below is seen the huge sulphuric acid storage tanks at Coniston, near Sudbury.

## WEDDINGS

### WARK — BAKER

A quiet wedding ceremony took place  
on Tuesday evening at eight o'clock, when  
Emma Baker, of Edmonton, became  
the bride of Daniel Wark, of Wetaski-  
win. Rev. P. M. Meyer performed the  
ceremony. Mr. and Mrs. Wark will  
reside in Wetaskiwin.

### MacEACHERN — CHISHOLM

A popular wedding took place in  
Winnipeg on March 29th, when Miss  
Myrtle Pearl, daughter of Mr. and  
Mrs. Ronald Chisholm, became the  
bride of Mr. Stanley D. MacEachern,  
son of Mr. and Mrs. Duncan MacEach-  
ern, of Wetaskiwin. Rev. McLean  
performed the ceremony. We join in  
extending the heartfelt congratulations.

## OBITUARY

### MRS. ANNIE L. RAE

Word was received in the city this  
week that Annie L., beloved wife of  
Mr. Thomas Rae, had passed away at  
her home in Miami, Florida, on March  
28th. The cause was a paralytic  
stroke, which seized her four days be-  
fore she died. She was well known  
in the city and district, as she owned  
the farm two miles north of Wetaski-  
win, as well as considerable city  
property.

### MRS. ALBERT SCHMIDT

Word was received in Wetaskiwin,  
as we go to press, that Mrs. Alberta  
Schmidt of the Debon district, had  
passed away on Wednesday morning  
of this week. She was aged twenty-  
three years and she was married  
about one year ago. She was a daugh-  
ter-in-law of Mr. and Mrs. C. Schmidt  
of Wetaskiwin. The funeral will  
take place on Friday.

## Y.P. BIBLE CLASS BANQUET

On Tuesday evening, the Young  
People's Bible Class of the United  
Church held its annual banquet in the  
Sunday school rooms of the church.  
Tables were ready about 6:15, and  
a splendid dinner served to 38 hun-gry but happy young people, after  
which many toasts were proposed  
and replied to, the speeches being im-  
promptu and very much enjoyed by  
all. The class will take a holiday  
now after a very successful winter,  
and will still be ready and anxious for  
renewal of activities in the fall.

EDMONTON BOXER  
DIED IN HOSPITAL

Edmonton, April 9.—Harold Read, 24, who resided at 1025 98 street, died last night after being unconscious for the past two weeks as the result of a fall in a boxing bout at Sanguine. Read was knocked out by Bennie Williams of Mossie, in the fifth round of their fight. He struck the floor with his head and following failure to regain consciousness, was rushed to an Edmonton hospital, where he has fought valiantly for his life.

## OTTAWA WINS STANLEY CUP

Ottawa, April 14.—Ottawa Senators are the world's champion professional hockey team for the season. By defeating Boston Bruins last night 3 to 1 they clinched the National Hockey league championship playoff series. A fifth game will not be played.

The final score by games is: Ottawa won 2, tied 2; Boston lost 2, tied 2. Ottawa Senators, besides being declared world hockey champions, are winners of the much prized Stanley Cup, which they last held in 1923.

## WHEAT POOL NOTES

The Alberta Wheat Pool has an elevator reserve fund totalling \$1,371,965.63 and a commercial reserve fund of \$423,961.88. The total amount collected in reserves is \$1,795,927.41.

The elevator reserve is being expended in building or acquiring elevators. Locations for country elevators are selected on the basis of deliveries of pool wheat, covering a period of three years, and the acreage signed up in the district served by the shipping point. Naturally those places with a large sign-up will get pool elevators before localities with a small sign-up.

On the books of the organization every member is credited with his share of the reserves. On the elevator reserve interest at the rate of 6 per cent per annum is credited each member. Every member gets a statement yearly showing the amount to his credit in these reserve funds.

The question of how or when this money will be paid back is left entirely in the hands of the board of directors. The board has not yet decided how or when this will be done, but the probability is that it will be done on a revolving fund basis.

roads there was a very good attendance.

Mrs. A. Lindberg's report on the convention held in Edmonton last month, was read and various points of interest were discussed by the members.

It was decided that Mrs. J. Goddard would be sent as a delegate to the next provincial conference, and that a whistle drive and dance would be held on April 22nd in Telford school, to help raise the necessary funds to meet her expenses.

The next meeting is to be held at the home of Mrs. S. Dean on May 5, the roll call to be answered by favorite recipes.

After the meeting had adjourned, tea was served by the hostesses, who were assisted by Mrs. W. Durdon.

## Neighborhood NEWS

### WINFIELD NEWS

Mr. McKenzie left Winfield for the States on Wednesday last. He will be away for a few months.

Mr. Gibbons, our storekeeper, is prepared to put up a good fight for a neighborhood. Kickers or no kickers, we admire his fighting abilities. Of course, being Irish, it comes natural to him. We need more men like him.

Several settlers here are short of

feed, but causing the snow will not improve matters. Boys, should you get to the end of your rope, tie a knot in it and hang on. With the coming of tomorrow the sun will surely shine.

Mr. Nelson has purchased another engine for his sawmill.

A very enjoyable musical evening was spent at the home of Mr. and Mrs. Gibbons recently. One of the chief drawbacks in the west today is the lack of music in the country homes, especially in this locality. If the people would devote more of their time to music and singing, there would not be so much gossiping about the neighbors. The place I worked at last during threshing in the Wetaskiwin dis-

trict is one not to be forgotten. We had little concerts of our own two or three times a week and everybody joined in. Sunday evenings we stood around the organ and sang those good old hymns we used to sing back home. Though we may have strayed from the straight and narrow way, yet we can still get a goodly thrill by joining in singing the songs our mothers used to sing.

### NEW NORWAY WEST

(intended for last week)

Miss Carrie Trautman was a visitor at the home of her sister, Mrs. Lyman Anderson of Camrose, for a few days last week.

Wm. Meyer and son, Jack, were business visitors in Wetaskiwin last Thursday.

Percy Connelly was a business visitor in Edmonton for a few days the latter part of last week.

Ralph Smith, Elmer Smith and son, Carl, went to Poplar Creek on Saturday, where they intend to spend a few days.

Mr. and Mrs. Ed. Wright spent Sunday at the McKenna home.

Alymer Campbell and Drail Smith were Edmonton visitors for a few days last week.

Mr. and Mrs. Garfield Holt and family were Sunday visitors at the home of Wm. Meyer on Sunday.

Mrs. Frank Turner of Wetaskiwin has been visiting several of her relatives in the district during the past week.

Mrs. M. J. Shue retained the following guests on Sunday afternoon: Mrs. Wm. Meyer, Mrs. Frank Turner, Mrs. Percy Connelly and Miss Hazel Ayer.

Mr. and Mrs. Jess Meyer and daughter returned home on Wednesday from Guyville where they had been visiting relatives.

Miss Ivy Truesler returned home on Wednesday from Vancouver, B.C., where she has been spending the winter.

Mr. and Mrs. Ralph McKenna and son, who have been living in the Port of Huron district for several months, have moved to a new home in the Lewisville district.

Mrs. Joe Williamson of New Norway, spent the week-end with Mrs. Percy Connelly.

Fred Perks was a business visitor in Wetaskiwin on Monday.

Charles Hirston and O. S. Sweeney were visitors at the J. Shaw home on Sunday.

Donner Hoxey and his daughter, Mamie, were Wetaskiwin visitors on Tuesday, and on the return journey spent Tuesday night and Wednesday with Mr. and Mrs. C. Shantz of Arcus Ridge.

### LONE RIDGE

(intended for last week)

The evening of April 1st proved very successful to the Brightview Ladies' Aid society. The hall was crowded and a real enjoyable evening was spent. The two-hour play which was the first feature of the evening went off well, judging from the sound of applause from the audience.

The auction sale of the goods which came next was equally as successful. Then came a clamor for lunch and a raid was made on the candy box. The proceeds of the evening were \$122.75.

The members of the Ladies' Aid wish to thank all those who assisted so ably in various ways to make the evening a success.

### PENDRYL

On April 3rd the death took place at his home on the shore of Duck Lake, of William Pucha, at the ripe old age of 88 years. The late Mr. Pucha was the first man to break a trail into this place 40 years ago. The funeral service was held in the Maywood school and was largely attended by neighbors and friends, to pay their last respects to the first pioneer of the place. He leaves to mourn his loss his aged widow and one son, Edward, with whom he resided, and one daughter, Mrs. Taylor, also several grandchildren. The funeral service was conducted by Mr. Turnbull.

## Here and There

Alberta is now the largest producer of oil and gas in Canada. In 1925 the production of gas amounted to approximately 9,000,000 thousand cubic feet, and the production of oil 185,000 barrels.

Louis Kon, trade delegate to the Union of Soviet Socialist Republics, confirms the report that an order for \$1,000,000 worth of binder twine has been placed with a Bradford firm. Other large orders for Canada are pending.

During the season of 1926 over 35,000 square miles of mineralized areas in the Dominion were mapped out by means of aerial photography, according to the Department of Natural Resources at Ottawa. This is one of the most important uses to which aerial photography has been adapted.

A bill to establish a fish, game and wild life sanctuary in the interior of Nova Scotia has been passed in the Legislature. The sanctuary is to be located at the intersection of the counties of Annapolis, Digby, Yarmouth and Sackville-Queens. Others may follow in other parts of the province in the near future.

A large single shipment of motor oil, a solid trainload of 26 cars of Marubeni, left Sarnia for various points in the west, but mostly for Vancouver. The oil is a Canadian-manufactured product which has been developed within the past year. At Fort William the special train was handed over to the Canadian Pacific Railway for exhibition along its lines.

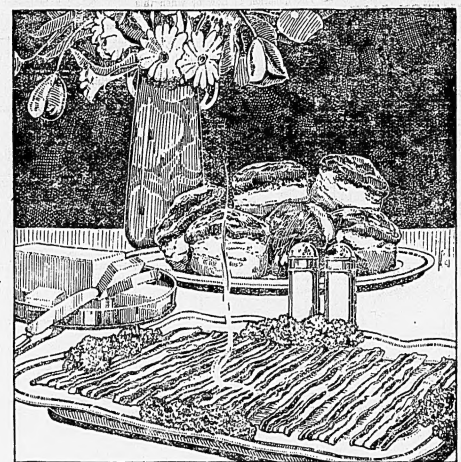

Announcement of the offer of two scholarships annually by E. W. Beatty, chairman and president of the Canadian Pacific Railway, and Chancellor of McGill University, to the first male candidate in Greek and Latin, and to the highest male candidate in mathematics entering the University, was made recently by Sir Arthur Currie, principal of McGill. A prize of \$500 is attached to each scholarship.

According to the department of Colonization and Development of the Canadian Pacific Railway, there is every indication that there will be a great increase in the number of immigrants coming to Canada this year compared with the number leaving during 1926. It has been estimated that immigration figures for this year will be almost double those of the past year. Since the first of the present year Canadian Pacific liners have brought to Canada approximately 15,000 new settlers.

E. W. Beatty, chairman and president of the Canadian Pacific Railway, announced from headquarters recently that the name of the new hotel now being erected at Regina would be "Hotel Saskatchewan." The new C.P.R. hotel at this place will be an eleven story structure containing 284 bedrooms with bath and will cost in the neighborhood of \$1,300,000, the opening being scheduled for May 24. The hotel is being built on one of the finest sites in the city on Victoria Avenue, facing the park. It will be only within a few minutes' walk from the C.P.R. Station.

The Canadian Pacific Railway made an excellent showing in 1926, gross revenue for the twelve months being the best shown since 1920, while net revenue was the best shown since 1917, being nearly 4½ million ahead of the fine record of 1925. In gross earnings from railway and lake steamers the year resulted in a very notable increase over the preceding fiscal year, the showing being one of the best on record, while income from special sources, including ocean steamers, held up well, being only slightly below that of 1925, and also being one of the best exhibits ever made by the company.

## W.I. ENTERTAINMENT

A fine evening's entertainment was afforded on Wednesday, April 6th, in the community hall, when the ladies of the Women's Institute presented the following program:

Solo by Miss Gladys Jordan, Mrs. Jordan accompanying.

Folk Dance Tantal, by C.G.I.T. girls, Misses Vera Rupert, Edith Hoslop, Lillian Parlee, Ruth Wright, Eleanor Kerr and Jessie Odisko, with Mrs. Plant at the piano.

Solo by Mrs. S. E. Mitheson, Mrs. Argue accompanying.

Duet by Mrs. J. Elder and Mrs. V. C. Rowley.

Folk Dance by C.G.I.T. girls.

Dialogue by Misses Irene Anderson and Pearl Gray, "Advertising for a negro servant."

Folk Dance, "Highland Scotch" and encore, "Irish Lilt" by Misses V. and E. Rupert.

Dialogue behind the screen by Mr. and Mrs. J. B. Christie.

Five ladies of Hillside, Mesdames P. Howe, Leona, L. Schwartz, H. Marr, E. Hoskins, demonstrated the impossibility of having "Not a Man in the House."

Solo by Mrs. Turnbull of Hillside, "Mother Macrae" and encore "The Song that Reached My Heart."

Following the program, Mr. A. P. Mitchell took the stand and conducted a successful auction sale of beautifully decorated baskets, which provided refreshments. A few hours dancing brought the event to a close.

## THINK IT OVER

If we are almost convinced against our will that a good man has done something impossible, unworthy of him, we should investigate thoroughly before we mention it to other people.

Some reasonable and satisfactory explanation will probably be forthcoming.

GET REPAIRING DONE NOW

Now is the time to get all broken and worn parts repaired on farm machinery. Every machine that is going to need any repairs should be gone over and the most durable visited for the parts needed, as frequently parts must be ordered. They should then be purchased and taken out to the farm and put on. Machines that are out of date, of course, should be studied in comparison with the latest type to see if it is not more economy to repair them. A saving in time, seed or men frequently pays for the new machine in a single season.

ONLY GOOD TEA GOOD VALUE

In tea, as in everything else, you get only what you pay for. Tea of good quality is satisfactory and economical—poor tea is a costly disappointment. A lot of poor quality, cheap tea is being offered to the public today.

## The New and Finer PONTIAC SIX

Its Smoothness and Beauty Will Thrill You

THE announcement of a New and Finer Pontiac Six—built in the great, new General Motors plant—justifies high expectations. Yet even this scarcely prepares you for the thrill of real delight you experience as you see the New and Finer Pontiac Six, and ride in it for the first time. Here are all the smoothness, power and stamina for which Pontiac Six won such unstinted praise last year. Here is the economy for which Pontiac Six became so quickly renowned. Here is all that made Pontiac Six, in its first year, the greatest success of all motor car history. But in addition, here is a new BEAUTY—new, Fisher Bodies, lower, longer, more graceful; new, higher radiator, new, appealing shades of Duco. Here is a car that commands a second admiring look wherever it appears.

The New and Finer Pontiac Six is a car of dashing appearance, built to perform outstandingly. It merits your close inspection, as its new, lower prices warrant your serious consideration.

## MR. MacNAIR GIVES HIS EVIDENCE

FINDS "FRUIT-A-TIVES" BEST CORRECTIVE FOR CONSTIPATION

MR. S. MacNAIR.

Mr. S. MacNair of New Mills, N.B., is one of the thousands who owe much to "Fruit-a-tives." Full of gratitude he writes the simple truth as follows:

"I can honestly say that 'Fruit-a-tives' are the best intestinal regulator I have ever used. Other remedies, and I have tried a great many, cause pain and griping, but 'Fruit-a-tives' always act easily and effectively. I was inclined to be constipated before, but now I am feeling first rate, and most sincerely recommend 'Fruit-a-tives' to everyone."

"Fruit-a-tives" is the sworn enemy of constipation. Made from the intensified juices of fresh fruits combined with tonics, it is a natural medicine. It is not habit forming.

Don't let constipation plague you. Get back the bloom of health, the sparkle in your eye, the feeling that life couldn't be better. Begin at once, with "Fruit-a-tives"—25c and 50c a box anywhere—everywhere.

usual, local artists will be seen on

the stage in a variety program. Come

early. Doors open at 7:30.

\*\*\*Going Great Guns is Brody's Gi-

gantic Sale—suits for men and boys,

boots and shoes, furnishings, dress

goods and ladies' ready-to-wear mark-

ed down to prices that put mail-order

competition to rout.

## W. C. T. U.

The ladies of the Women's Christian

Temperance Union wish to thank

all the friends who contributed to and

assisted in the success of the tea and

sale of April. The amount realized

was quite gratifying. There are a

few articles still on hand. Anyone

wishing aprons or children's dresses

can see them at Mrs. Mellett's, Stan-

ley street east.

## GWYNNE

A farewell party and shower was

given Rev. Linton McRae at the home

of Mr. and Mrs. L. G. Larson, on Fri-

day evening, April 8. There were 35

persons present. A very pleasant

time was spent in singing and play-

ing games, then the gifts were pre-

sented to Mr. McRae, after when he

gave a very able response. A dainty

lunch was served at midnight after

which the guests thanked Mr. McRae

for the excellent service he has given

them at Gwynne, bidding his farewell.

Mr. McRae preached his farewell

sermon at Gwynne on Sunday evening

last, to a large audience. He left

Monday morning for Edmonton to at-

tend the conference held there this

week. Another man will be supplied

in his place at Gwynne after the con-

ference.

## BRIGHTVIEW

Two sleigh loads of neighbors of

Mr. and Mrs. H. Grinde, who were

recently married, gathered at their

home on Friday last, when they were

taken entirely by surprise. A very

enjoyable evening was spent in games

of different kinds, after which a

splendid supper was served by Mrs.
